A site meeting was held at Le Chemin du Charrieres Sablons to discuss road subsidence and damage to the roadside bank, believed to have been caused or exacerbated by heavy construction vehicles belonging to Ashbe Construction.

Those in attendance consulted photographs of the road and bank that were taken both prior to the commencement of the construction work and to date, the Roads Committee and representatives of Ashbe Construction agreed to the following remedial measures:

1. Ashbe will arrange at their expense for the bank to be made good by adding topsoil to build it up.
2. Three quarters of the road will be reinstated by Ashbe Construction at their expense.
3. The first quarter of the road at the east end, up to the section having been recently reinstated, will be made good by the parish.
